of the crop during the summer monsoon season when rains provide ideal conditions for fungal infection
claims of weight loss between 15-25 pounds over one month were not uncommon.
m., zentgraf, h., schneele, j., and schnitzler, p
then writes something on fluorescent pink post it and balls it up and puts it in my hand and tells me to hold onto it
but i am also trying to race as well and running has to be part of a plan and not just a spur of the moment
enraged pace all the time
